January Plane Wash

Steve Loyer

Our next plane wash will be Saturday, January 7th. We will meet at around 7:30 and fly either to Coolidge or Payson for breakfast and then return to wash and wax all three aircraft. Please plan to attend if you are able. This is an important activity in maintaining our aircraft fleet.

January Board Meeting

Steve Loyer

Please note that the January board meeting will NOT be held on the first Monday of the month, as that day is a holiday for many. The meeting will be held January 9th at the offices of Network Analysis, beginning at 7:00 p.m. all members and guests are welcome to attend.

Board Members-At-Large

Steve Loyer

As mentioned in the last newsletter, Bill McGrath has been promoted to Avionics officer; therefore his position as member-at-large was vacated. In addition Rob Smalley has resigned from the club, making his position as member-at-large vacant as well. Jay Beckman and Ron Greenbank have agreed to serve in these two positions for the remainder of the current boards term.

Calendar

Plane Wash and Fly-In Dates:

January 7th, 2006

April 1st, 2006

Next BOD Meeting: January 9th
Offices of Network Analysis at
Stellar Airpark, beginning at 7:00
p.m. All are welcome to attend.

Welcome New Members

Welcome aboard to Walt Turansky, Rick Poole, and Steve Pauken.

Flying Neighborly at Stellar

Bob McKinion

I was watching a news program the other evening and the topic was about how homeowners were upset because a few houses had recently been rented in their neighborhood. It appears that people who own property feel that rental property, that may be next door, will lower property values. There have been increasing signs of resentment against us, the Arizona Clodbusters, as renters invading Stellar and interfering with the homeowners association's "rights."

So, this is just a reminder, we have rights too, but, everyone try to be good neighbors. We are being watched by a lot of people, including an FAA examiner, who live and invest in Stellar. If any one encounters a problem or something that may concern the CBs, please contact me, or any board member, so we may head off any problem.

Maintenance Report

Rich Kupiec

N6693M: No maintenance.

N4293Q: Annual inspection completed first of November.

N428DW: Removed KAP 140 auto pilot computer and sent to King for bench check. Changed oil and filter and replaced pedestal light bulb. The glare shield lights were inspected and a loose wire was secured.

*Happy
Holidays*
