October 2006

### Thank-you *Steve Loyer*

Thank-you to everyone who attended the October's plane wash. Because of the good attendance, we were able to clean all three aircraft inside and out, wax them, and change the oil in 93Q, all in less than three hours.

### Aircraft Improvement Survey *Steve Loyer*

I received 26 responses to the aircraft improvement survey I sent out in September. Of these, 24 respondents said they would support the improvement plan that I described in the survey. For the questions regarding the most crucial improvement, it was a tie between replacing the LORAN in 93Q and redoing the interior of 93M at 9 apiece. The majority of respondents supported paying for the improvements with a one time special assessment. Many of those that responded brought up excellent points in their comments. We will be discussing the survey and how to proceed at next month's board meeting. If you did not respond to the survey and would still like to, send your responses to me at [sloyer@microchip.com](mailto:sloyer@microchip.com).

### Aircraft Checklists

Bob McKinion has created club specific checklists for each of our aircraft and placed

them in the airplanes. While you are not required to use these checklists, they contain reminders about performing tasks specific to our planes and our operations. Contact Bob if you have any suggestions for changes and improvements.

#### Calendar

Plane Wash and Fly-In Dates:

January 6<sup>th</sup>

April 7<sup>th</sup>, 2007

Next Board Meeting:

November 13<sup>th</sup>, Beginning at 7:00p.m., Offices of Network Analysis, Stellar Airpark. All members and guests welcome.
